## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-5 are rejected under 35 U.S.C. 102(a) as being anticipated by I.

Ballesteros et al (*Ethanol Production from Olive Oil Extraction Residue Pretreated with Hot Water*, 2002 Spring, 98-100 pgs. 717-732).

I. Ballersteros et al disclose a process for the extraction of phenolic compounds from a residue generated in olive oil extraction by a two-step centrifugation process. The process of the prior art comprises a step whereas the olive pulp is pretreated in hot water at 150-250°C temperature range (See p 718, lines 36-38). The water was added at a 1/10 (w/v) solid/liquid ratio and hot water pretreatment is done in a laboratory scale-stirred autoclave (Model EZE-Seal, Autoclave Engineers, Erie, PA) (See p 720, lines 28-30). It is also noted that in the prior art, analytical procedures are disclosed as using HPLC (See page 719, lines 45-46).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kellette Gale whose telephone number is (571) 272-8038. The examiner can normally be reached on M-F (6:30am-3:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on (571) 272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 10/801,511 Page 3
